

March 24, 1975

PRESIDENT: The question is the adoption of the committee amendments to LB91. Record your votes. Record Mr. Clerk.

CLERK: 30 ayes, 0 nays and 19 not voting.

PRESIDENT: The amendments are adopted. Senator Simpson.

SENATOR SIMPSON: I think that I have an amendment on the desk that has been in the Journal. Maybe the Clerk should read it.

CLERK: Read amendment.

SENATOR SIMPSON: Mr. President, I would move adoption of the amendment, and I would explain it as follows that the present time there is nothing that would require a mobile home park to have any spaces available that might maintain the mobile home which is totally electric. There are a lot of mobile homes that are being built now which are totally electric so it hurts in Nebraska where they might be manufactured and they might not be able to put them in a private concerns lot because they would not have one that the electrical hook-ups would be such that that would allow them to pull this much electricity through the lines so in order to get something started on this, and some of the owners of lots that are making additions or are building new ones or are doing this automatically thought it might be good that one-fifth of the lots might be available on this basis and I really don't have a lot of pride in whether it should be 20% or so, but I think that in total we should have the opportunity. It is very difficult to go back afterwards and do this. It becomes very expensive on the lot owners and it creates a hardship where people have these types of homes. I move adoption of the amendment.

PRESIDENT: Senator Cavanaugh.

SENATOR CAVANAUGH: Senator Simpson would you yield? This is a pretty major amendment Senator Simpson, why didn't it come to the committee?

SENATOR SIMPSON: Well I didn't hear about the amendment until about a week ago in talking with the power districts and consideration that they might have in this area, and they have been trying to do this voluntarily and so I did make out the amendment and I put it in the Journal so everyone would have a chance to look at it. I didn't get it that long ago. This is a power district amendment....

SENATOR CAVANAUGH: Is this a power district amendment?

SENATOR SIMPSON: Well it would be a concern to power districts. It was partly brought to my attention by power districts.

SENATOR CAVANAUGH: OPPD or who?

SENATOR SIMPSON: No, not specifically OPPD.

SENATOR CAVANAUGH: Well specifically who?

SENATOR SIMPSON: How about NPPD.
